

The Solar Case is an illuminated led display case. Built as an exterior cabinet it provides a stylish, practical and efficient way to display information throughout the day and night in this high grade display cabinet. Essentially it is an outdoor notice board in a robust case that will last for years.

The Solar Case has four options and comes in two coating options. You also have the option to buy it with or without posts depending on whether it can be wall mounted. It has a wide variety of applications and is particularly useful in rural locations where conventional street lighting and mains electric supply does not exist or would be prohibitively expensive to install.
